

What is Microsoft Mode?

Chrome plugin that updates Google apps & Slack in SERP to show as Microsoft in SERP.

Before:

After:

How to Install the Chrome Extension

Follow these steps to install the extension manually in Chrome:

Step 1: Download and Extract the File

1. Download the [ZIP file linked here](#).
2. Right-click the ZIP file and select **"Extract All"** (Windows) or **"Unzip"** (Mac).
3. Save the extracted folder somewhere you can find it easily.

Step 2: Enable Developer Mode in Chrome

1. Open **Google Chrome**.
2. In the address bar, type:
`chrome://extensions/`
and press **Enter**.
3. In the top-right corner, **toggle on "Developer mode"**.

Step 3: Load the Extension

1. Click **"Load unpacked"** (a button near the top of the page).
2. Select the **extracted folder** from Step 1.
3. The extension should now appear in Chrome.

Step 4: Use the Extension

1. Open Glean
2. Click the **puzzle piece icon** in the top-right of Chrome.
3. Find the extension in the list and turn on **Enable Microsoft Mode**

That's it! 🎉 The extension is now installed.
